SIGNATURE TREATMENTS

Our Signature Massage and Facial treatments are a creative partnership between you and your practitioner. Before booking, we invite you to read the practitioner bios on our booking page to learn more about each specialist's unique practice and point of view.

THE MASSAGE

90 minutes, \$250

Treatment begins as a calibration. We'll create a shared language and mode of practice centered on your interests. Hands on, we'll ebb through relevant states and modalities: clear, stretch, drift, pressure, move, sound, still.

Care reaches through the structural tissues and nervous system, supporting release and reintegration. We finish with guided breath and movement, sonic tuning, herbal aftercare, and a ritual to carry home.

THE FACIAL

90 minutes, \$275

Skin is the intelligent, expressive interface between your environment and your inner world. Our botanical ritual combines a bespoke cleansing and refining protocol with guided movement, massage, light therapy and vibrational resonance to stimulate detoxification and regeneration on every level. Treatment extends through the décolletage, scalp and hands, tending the lymphatic and nervous systems. You'll leave with glowing, lucid skin, insight on your unique complexion, and a tailored protocol to carry home.

CURATED SESSIONS

On our bookings page, you'll also find a rotating array of unique offerings from our network of healing arts practitioners—including acupuncture, tarot, sound therapy, strength training, somatic coaching, guided meditation, and a variety of consultations in creative, intuitive, and herbal modalities.

STUDIO

Between classes, our lofted Studio is an open field of rest and free movement for all guests of the Baths. We offer recurring daily classes and special workshops in strength training, sitting meditation, sound immersion, dance, sensory plant meditation, breathwork, Deep Listening, yoga, Pilates and various forms of creative practice. All are access-centered and open level, with no prior experience required.

ABOUT THE BATHS

HISTORY

The historic brick and timber structure that now houses The Baths was originally built in 1885 as a fiber storage warehouse, where raw wool and cotton bales were stored before being processed into textile elsewhere onsite.

OUR PROGRAM

The Baths and Spa program is designed by Remy Maelen—a multidisciplinary care practitioner, performance artist, and Pocketbook’s Director of Wellness.

Rooted in the conviction that healing is relational, operations and programming blend in a holistic model designed serve guests and team members alike.

Our Hosts, Care Practitioners, and Class Facilitators share a platform and a structured research lab to hone tools and perspectives through guided creative exchange. We welcome guests into this living culture of care, where ‘wellness’ is more than a state of personal health—it’s a reflexive practice that connects us with one another and the environment we share.

INSPIRATION

The Baths were conceived of and designed by the in-house creative team behind Pocketbook Hudson. We were inspired by the variation of bathing traditions across the globe, and the fundamental healing qualities of water.

ART AT POCKETBOOK

Pocketbook sees art as a form of infrastructure, rather than adornment. An emotional architecture held together by long-standing friendships, mutual witnessing and shared language. It evolves from an artist-led desire to build—not just images or objects—but conditions: for intimacy, for irreverence, for worlding. What emerges is a new form of hospitality, one rooted in queer kinship, participation and transformation.
